Presentations at:
10:00am & 1:00pm

Test Drive the All New EPSON Stylus Pro GS6000 Solvent Printer!!

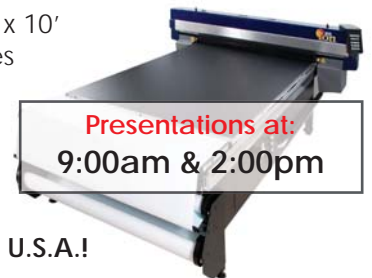

Check out the hottest printer of the year, the GS6000. See how this printer bridges the gap between Indoor POP & Fine Art production to the finest detailed Vehicle Graphics, Floor Graphics, Banner and Decal production. Stunning results with Orange & Green allow you to hit the hardest of colors to match. EPSON's new Eco-Solvent ink is virtually odorless with no harmful Nickel or other heavy metals! The "Greenest" light-solvent machine to date printing at a super-fine 3.7 picoliter drop size. True 720 dpi at 180+ sq. ft. per. hr. Also check out EPSON's water-based ink jet line including the Stylus Pro 11880, 64 inch printer.

UV Flatbed Print & Cut Demos on the Gerber ION & M Series Cutter!!

Demos all day long on the exciting new Gerber ION 5' x 10' UV flatbed printer and the matching Gerber M Series cutter. Come and experience why this winning combo offers advantages over "last year's" UV printer/cutter combinations. Gerber

Factory Technicians on the floor answering your questions. Stop by and see first hand what a great UV print / cut solution can do for your business! **MADE in the U.S.A.!**

Presentations at:
9:00am & 2:00pm

ARLON

Vehicle Wrap Demos with ARLON & John "Sticky Fingers" Mehan!

Check out Arlon's new DFP6000X and 4500GTX vinyls with X-scape Technology. See for yourself why vehicles are not the only things getting wrapped in today's market! Find out how profitable this sleeping giant in product marketing can be. We will also be offering combo packs of these great vinyls & matching overlaminates at unheard-of, limited time pricing!

Presentations at:
11:00am & 3:00pm
